

GRANTSNEWS

Above: The future Narconon Nepal in the Himalayas.

QUICK FACTS

- Worldwide 500 people die from drug abuse every day—over 200,000 per year.
- 70% of all crime worldwide is drug related.
- Almost 1 million dollars is generated in illegal drug sales every 25 seconds.
- 210 million people internationally consume illegal drugs – this is more than the populations of California, New York and the countries of Spain, the United Kingdom and Australia combined.
- The illegal drug trade is estimated at \$322 billion a year. This is more than the Gross National Product of 88% of the world's nations.
- There are an estimated 3.6 million cocaine addicts in the U.S. alone.

IAS GRANTS ARE FUNDING IDEAL NARCONONS FOR ALL CONTINENTAL ZONES

In 2001, in the wake of 9/11, the IAS funded the establishment of Narconon Arrowhead, the largest drug rehabilitation facility of its kind.

The IAS just announced that it is providing grants for the next major step forward in salvaging this world from drugs with the establishment of Ideal Narconons in each continental zone.

Just as Narconon Arrowhead represents a “Flag” organization for the Narconon sector, these

new Continental Narconons will be the equivalent of “Advanced Orgs” for their geographic areas.

Each will epitomize the ethnic and culture of their zone and make it possible to train sufficient drug rehabilitation professionals to proliferate new Narconon facilities all across their continental areas.

Grants are funding new Narconons for the following areas:

CALIFORNIA: A luxury estate in Ojai, California that overlooks

The home of the new Narconon in the Washington D.C. area, a country retreat used by U.S. Presidents Roosevelt, Eisenhower and Hoover.

the Pacific with its own helipad. An hour and a half outside of Los Angeles, it will be the home of a Celebrity Narconon.

WASHINGTON D.C.: A country retreat of U.S. Presidents Herbert Hoover, Franklin D. Roosevelt, and Dwight D. Eisenhower.

LATIN AMERICA: A historical Hacienda Villa located in the mountains an hour and a half from Mexico City.

AFRICA: It is situated on a 500-acre game reserve an hour's drive from the future Advanced Org of Africa.

EUROPE: A former seminar center on the shores of Denmark's largest lake and 34 miles from the center of Copenhagen.

CANADA: Five buildings spread throughout a forested property with a lake, and located just 15 minutes away from the future Advanced Organization of Canada.

ANZO: A former resort with extensive grounds, a pool and a private lake located just outside Sydney.

UNITED KINGDOM: A gated property with three separate manor-style buildings on 8.8 acres in a rural area of East Sussex.

NEPAL: An entirely new Narconon facility constructed in the Himalayas on Hubbard's Peak in Nepal.

With these new Ideal Continental Narconons throughout the world, the IAS is funding the next vital strategic step of planetary salvage.

The Continental Ideal Narconons are being made possible through your support of the IAS. This new and vital program is funded by IAS grants. Now is the time for every member to advance to their next IAS status.
