Dear Scientologist,

I am writing you because we need your help.

Before I continue let's do some short history lesson about our religion.

You saw now some time ago the Portland video, and COB RTC told you exactly what occurred behind the scene and how we won.

That was a time when it was crucial to call oneself a Scientologist and act accordingly. With a 100% KSW attitude this was decided in our favor and was a major milestone.

If this determination at that point had not been there and we had not had COB RTC, the future of Scientology would have been a lot different than it is now.

You also heard or saw "The War is Over" event that occurred in 1993. Again, if we had not won we would not be here anymore. Again the 100% determination and application of KSW 1 caused our victory. Again with COB RTC at the helm during this fight and the many Scientologists who gave it all they had got made it possible that Scientology since then has flourished and prospered more than ever. This event alone has made it possible for us to be the fastest expanding religion on Earth today! And it was a matter of Keeping Scientology Working and supporting the IAS, so that we could keep going in the face of all that suppression.

However, this planet is not cleared until it is cleared and for that we need tons of translations in a lot of different languages.

The challenge from the viewpoint of translations is that everyone likes to talk in his own language and there are many of them here in Europe. You might have read the latest INT SCIENTOLOGY NEWS. This was fully translated in all EU languages. You should get your own copy in the org if you weren't sent one, and see what's the latest in Scientology.

"The Sea Org is an organization of expansion. And our prize is—a sane planet." - LRH

In short: **super exciting!!!!!!**

As I said above, everyone likes to read and study in his own language. That's where you come in. That's why we need an army of qualified translators from English to any target language, proofreaders and typesetters – in addition to all those who are already working on these lines. Thus, if you are qualified in this line of activity, then yes, I am addressing you and I am really asking you to organize some time right now to come to Copenhagen, Denmark, and lend us a hand in bringing LRH's solutions to the people of your country.

And if you know anybody else you feel could qualify to do this, please relay this message to him and let us know his name so we can also contact him.

In Scientology, times have never been more exciting and prosperous. And your help will make a difference.

“What is important is how much service you can give the world and how much you can get done and how much better you can make things.

These are important things. These are all that are important.”

– LRH, Anatomy of the Human Mind Congress, 31 December 1960,
